

Cédric Picron

ABOUT ME

Skilled **PhD** student with 4 years of experience in **computer vision** research under supervision of Prof. Tinne Tuytelaars. Has excellent knowledge of the latest advances in computer vision (and deep learning in general) and is eager to apply his know-how to real-world problems. His interests include **designing** custom network architectures for various computer vision problems, such as object detection and segmentation, and **deploying** these models in real-life scenarios. Likes to write clean and well-documented code, and loves to **interact** with other people, reminding ourselves in this ever digitalizing world that we humans are social beings after all.

SKILLS

- Analytical and Critical Thinking
- Attention to Detail
- Excellent Communication
- Broad knowledge of ML
- Expertise in Computer Vision
- Seasoned Python programmer
- Experienced PyTorch user and contributor

LANGUAGES

- **Dutch:** Native
- **French:** Native
- **English:** Fluent

HOBBIES

- Tennis
- Reading

WORK EXPERIENCE

PhD student in Computer Vision

09/2019 - *present*

KU Leuven - Leuven, Belgium

- Learned how to design efficient and high-performant **network architectures** for various **computer vision** tasks, such as object detection and instance segmentation.
- Learned how to **communicate** scientific findings in a clear and concise way, both written (with papers) and verbally (through presentations).
- Learned how to write **grants**, with a successful application for the VSC (Vlaams Supercomputer Centrum) compute grant.
- Learned how to **guide** and **give feedback** to master thesis students new in the field.

EDUCATION

Master of Science: Mathematical Engineering, 09/2017 - 06/2019

KU Leuven - Leuven, Belgium - Magna cum laude

Bachelor of Science: Electrical Engineering, 09/2014 - 06/2017

Vrije Universiteit Brussel - Brussels, Belgium - Summa cum laude
